

The most institutionally vetted solution on the market.

Exchanges are evolving beyond spot crypto trading into tokenized assets, prediction markets, stablecoins, and programmable financial products. Success requires more than liquidity—it requires trusted asset intelligence, counterparty transparency, operational controls, and scalable infrastructure. Lukka provides the institutional data backbone that helps exchanges accelerate listings, strengthen compliance, reduce operational risk, and power the next generation of digital markets.

Comprehensive Asset Intelligence

OneFi — The Source of Financial Truth

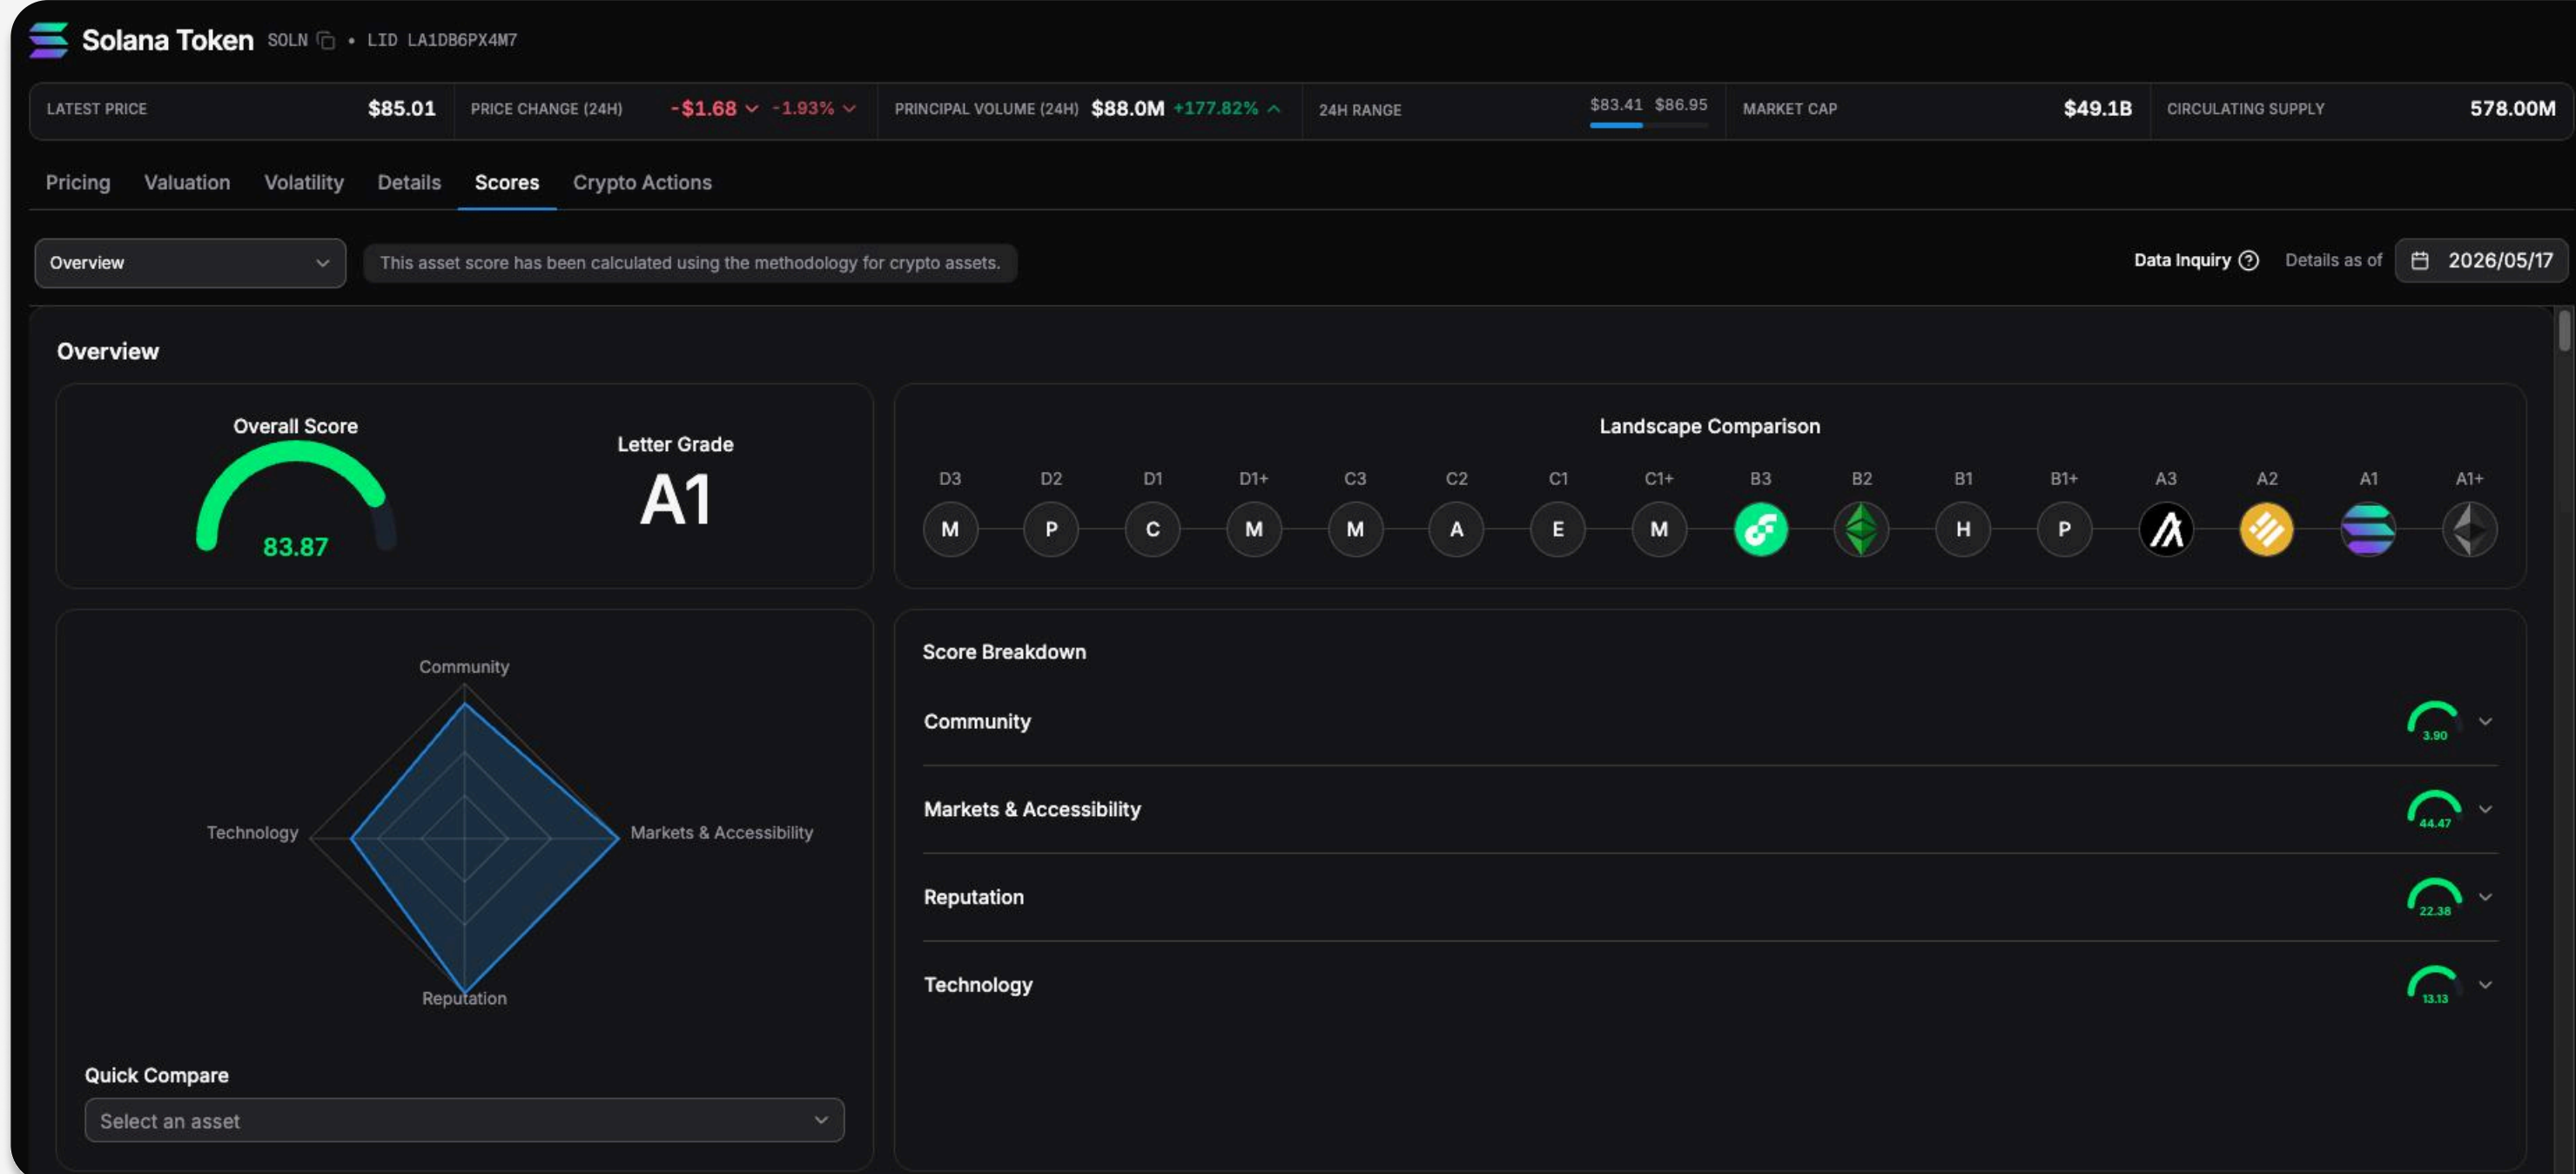

Normalize and govern digital asset data across listings, trading venues, custodians, and market infrastructure through a unified data foundation.

2M+ Assets Across 108 Blockchains

Comprehensive coverage of digital assets, tokenized instruments, and emerging asset classes with institutional-grade standardization.

Asset Lifecycle Intelligence

Track listings, delistings, migrations, forks, rebrands, and crypto actions that impact exchange operations and market integrity.

Faster Listings & Market Operations

Accelerated Asset Reviews

Reduce manual listing evaluations through standardized classifications, asset intelligence, and governance frameworks.

Market Discovery & Expansion

Support new listings, liquidity analysis, benchmark creation, and emerging market opportunities through trusted institutional data.

Operational Efficiency

Replace fragmented review processes with structured workflows that reduce onboarding time and improve consistency.

Counterparty Trust & Compliance

VASPClear — The Source of Counterparty Trust

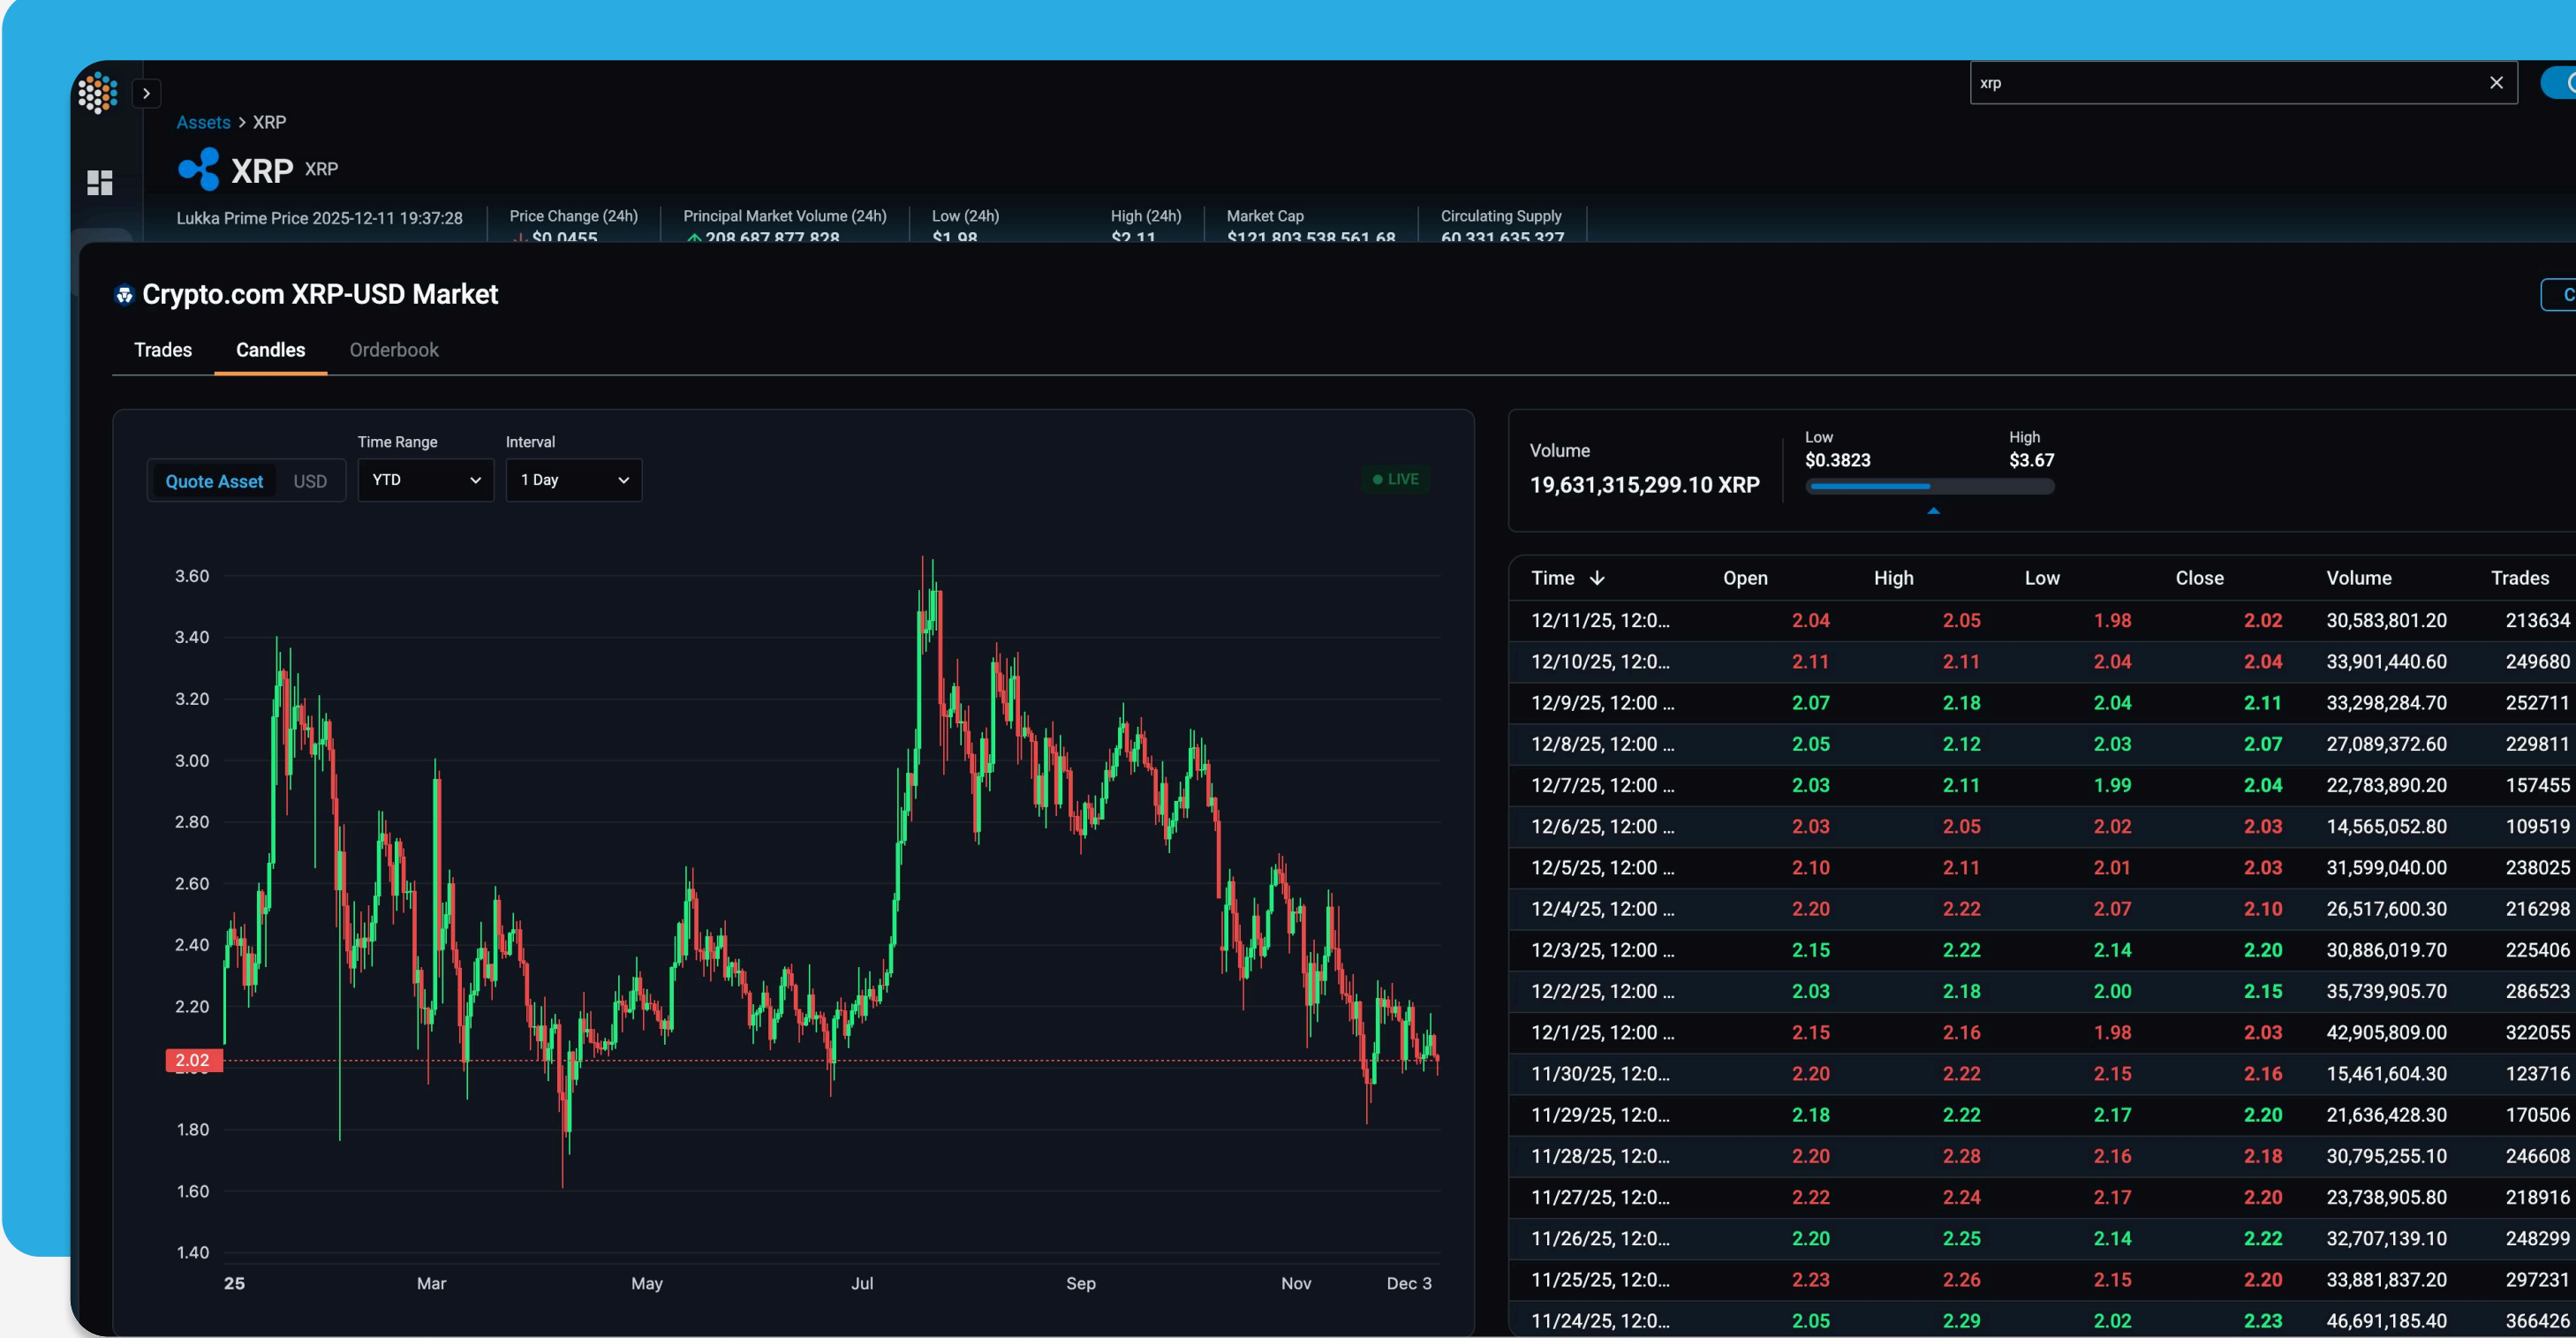

Establish trusted relationships across issuers, market makers, custodians, liquidity providers, and ecosystem participants.

Entity & Venue Intelligence

Evaluate counterparties using licensing, jurisdictional, ownership, and operational intelligence.

Regulatory Readiness

Support listing governance, compliance reviews, AML initiatives, and evolving regulatory requirements with transparent audit-ready data.

Market Intelligence & Growth

Lukka Intelligence

Transform market, pricing, compliance, and asset data into actionable intelligence for exchange operations.

AI-Ready Distribution

Deliver trusted exchange intelligence directly into copilots, agents, APIs, and internal workflows.

Faster Market Decisions

Accelerate listing approvals, investigations, compliance reviews, risk assessments, and market oversight through AI-enabled workflows.

Digital Asset Data You Can Trust

All of Lukka’s products are created with institutional standards, such as AICPA Service and Organization Controls (SOC), which focus on data quality, financial calculation accuracy & completeness, and managing technology operational risk. Lukka has obtained AICPA SOC 1 Type II and SOC 2 Type II Audits, an ISO/IEC-27001 certification, NIST Cybersecurity Assessment, and continues to lead the industry with best in class technology risk governance.
